Pahokee Face Lifting Planned by Council

PAHOKEE — Downtown Pahokee seems due to get some major facelifting following action by City Council at a special meeting last Saturday morning.

Council authorized issuance of a building permit to Vance Denton to rehabilitate the rickety structure formerly occupied by Jones Hardware, on Lake Ave.

With the building on the grim edge of the city's provision to condemn any structure which would cost more than 50% of its market value to repair, Council acted to keep the structure. After a tour of the building conducted by Denton, and his assurance that he plans to recap the pilings, replace considerable framing, put in a bathroom, put on a new front, and observe the new 14-ft. setback rule, Council elected to grant the permit.

ROTARY HEARS OF SUGAR ACT

PAHOKEE — Over quota sugar production is due not to increased plantings but to greater efficiency of operation in field and factory resulting from research done by private industry and USDA scientists, said Fred Sikes, personnel manager for the U. S. Sugar Corp., Clewiston, at the Rotary meeting Thursday.

In outlining the history of the sugar industry in the United States, Sikes said that two states, Florida and Louisiana produce cane sugar. He went on to say that the total of cane sugar and of beet sugar combined is less than one-third of the sugar combined in the U. S. Even with the advent of the production of Hawaii, Puerto Rico and the Virgin Islands the total production is little more than half of the total sugar requirement of the United States.

Florida sugar production in four of the last five years has been in excess of the 500,000 ton quota allowed under USDA quota regulations, Sikes said.

The current crop will produce more than 600,000 tons, he added.

Quota Figures

Sikes presented final U. S. quota figures for the years 1948 through 1955 which indicate an increase in quota of 857,000 tons in the period tabulated.

The quota figures follow:

Year	Final U. S. Quota
1948	734,300
1949	758,000
1950	827,900
1951	773,700
1952	794,000
1953	845,000
1954	818,000
1955	820,000

Sikes pointed out that the probable U. S. consumption in 1955 will reach 8,500,000 based on the fact that the per capita consumption of sugar is approximately 100 lbs. per person. This (Continued on Page 8)

Pearce Death Is Suit Subject

WEST PALM BEACH — Suit was brought in Circuit Court Tuesday by James Earl Pearce against the Duda & Son, Inc. for \$150,000 as a result of an accident in which Mrs. Lois R. Pearce suffered fatal injuries Jan. 28.

Pearce charges that the accident resulted when Duda & Son's truck, driven by Lee Alfred Humphrey, their employee, wrongfully caused his truck to turn in the path of the late Mrs. Pearce's car.

Attorney Claude S. Jones and the firm of Fisher, Dickinson and Prior, West Palm Beach, are representing Pearce.

'EXPECT' IS 'SS KEYWORD' GROWERS INFORMED

The key word in the current confusion about paying Social Security on pickers is "expect," officials of Internal Revenue and Social Security sections of the U. S. government told an open meeting of Glades farmers and harvesters at Pahokee Tuesday night.

Keeping records on all persons "to whom you pay or EXPECT to pay more than \$100 a year" is the absolute and clearcut responsibility of the employer of the pickers, the government men emphasized.

Asked how employers could be so accurate in the number of pickers they "expect" to pay more than \$100 in wages this year, R. C. Gehrkens, jr., district director of the Social Security office for this area said "Unless you have a good reason to EXPECT that the worker won't make \$100, you are responsible . . . You can't sit back and expect not to have the responsibility for some of those workers making \$100."

STS. GRADED IN BELLE GLADE

BELLE GLADE — Street repairs and drainage projects moved forward this week, according to City Clerk Frank Anderson.

Graders moved down NW Ave. C, D, E and F in preparation for cut-back and sand in the Beverly Park subdivision. Commissioner H. O. Carlton presented a plan of work at last week's regular committee meeting. Commissioners unanimously approved plans Carlton outlined for improving streets in Beverly Park. At the same time approval was given for installation of a culvert in front of the library at City Park so that the open ditch in front of the park can be filled with salvage material and drainage be run into the ditch running through the center of the park. The work is now completed.

Progress is being made in the installation of a four-foot gutter in the Police Station alley.

Work on the Hillsboro Canal Levee L14 moved forward this week at the conference of the Hillsboro and North River canals. Clemmoris Construction Co., in charge of the dredging, gave notice to the city last week that the canal in the path of the work would have to be removed.

The city palm tree belonging to the city at the Gulf Club could not be removed, although possession of them was given in last week's Commission meeting to the Police Association for beautification of their club house. No local wrecker was found large enough to remove the tree. It was not economically feasible to hire a derrick for their removal, according to Anderson, city clerk.

3 New Businesses For South Bay

SOUTH BAY — Three new businesses have been established here, it was reported this week.

The Paradise Gardens Florist Shop, owned and operated by Mary Ann Rockwell, had recently opened for business as did the shell factory in the building formerly occupied by the Baptist Church, owned by Mrs. Richard Grant, Riviera Beach, are the managers of the shell business.

The Standard Truck Service Station under the management of Bill Murry, West Palm Beach, has opened in its new building, in connection with the new station, Mrs. Mattie Miller and Mrs. Louise Herring have charge of a restaurant. Designed by the station will be equipped with the most modern service station devices.

SAFETY EXPERT TALKS TO LIONS

PAHOKEE — "Each family in which there are two children can expect one of those children to be killed or maimed as the result of an automobile accident," Trooper Jack E. Walden said at Lions club luncheon Tuesday.

Trooper Walden, pinch-hitting for Walker D. Oliver, State Highway Patrol Safety Education officer for Troop E, who was ill, drew attention to the number of persons killed annually on Florida highways. He said that nearly 1,000 persons die each year in Florida because of simple traffic safety rules are not followed. Illustrating his talk with a James Stewart narrated film, Trooper Walden pointed out the most important safety rules for drivers. Among them, do not follow too close, concentrate, yield right of way and maintain equipment.

Showing that the difference between a minor traffic violation and a major fatality may be only one-tenth of an inch, Trooper Walden brought home the fact that no traffic violation can ever be trivial. Saying that "driving is a crime," Walden also said that "a wheel kills as fast as a gun."

Billy Mitchell, as program chairman, introduced the speaker, Ralph Johnson, Lion president, said.

Ceremony Marks Ground Breaking

BELLE GLADE — Ground will be broken at 3:30 p.m. Sunday for the Parish Hall of the Episcopal Church of St. John the Apostle, senior Warden Richard Townsend said this week.

Work is to go ahead on the first building of a series of three structures which will comprise the parish hall, the church edifice and a church school. N. B. Williams is contractor for the building, which was announced by Glades Episcopalians are expected to attend the impressive services which mark the end of St. John's formative year since it was established a mission in 1953. It marks the beginning of St. John's in its new location. Services are expected to be held in the new building by Easter, it was reported.

Others on the vestry are Grant Aveland, Edward Lively, Emmett Roberts and Donald Parke. The Reverend John Charles Petrie is vicar of the mission.

ELKS CHORUS PICTURED IN MAGAZINE

The February issue of The Elks Magazine, national publication of the Benevolent and Protective Order of Elks, carries a photo of the newly organized Pahokee Elks Teen Chorus. W. A. Slauter, director of the chorus and president of the Elks Lodge's Youth Committee, is pictured with the group. The chorus recently opened the Lodge's Teen Town and entered at the VA Hospital in Coral Gables. The Elks Magazine has a monthly circulation of over a million.

'Too Many Cattle Sold Since Frost', Young

Too many cattle have been offered for sale at the Glades Livestock Market since the recent frosts, according to George C. Young, manager.

Young advises cattlemen to "sit steady in the boat and not panic" in view of a national prediction for good steady prices for cattle within the next 35 or 40 days. A total of 1405 head passed through the market this week and in addition there were heavy field sales, according to this week's market bulletin.

Two days of frost last week plus the frost some three weeks ago knocked out a great deal of the green grass in the area pastures, Young said, and added that with cattle getting to the ground some cattlemen are selling as good if not a little better than with supplemental feeds.

GLADES GIVES TO POLIO FUND

Incomplete Glades totals for March of Dimes contributions indicate that the Polio drive has been a marked success this year, according to various community chairmen.

Beta Sigma Phi sorority sponsored a drive in Belle Glade and President Rosa Nash, chairman of this year's drive, reported that the Mother's March netted \$600.14 this year. This figure tops last year's by \$167.64.

Coin collections in all Glades areas were continuing through this week, it was reported, due to the fact that necessary supplies were late in arriving in the area.

Mrs. Jess Elliott, chairman of the Pahokee-Canal Point drive, gave special recognition to the Canal Point Lions club for its participation in starting a March of Dimes drive the first of January.

The club Tait Twister, Gene Waits, collected \$35.00 in four meetings for the Polio fund. Osceola Upthegrove is president of the club and Mrs. Elliott was enthusiastic in her praise of the work.

The Pahokee Mother's March, of which Mrs. Carl Davis was chairman, netted \$329.93, an amount just under last year's total of \$342.95, Mrs. Elliott said. She also reported that the Woman's Club and Prince Theatre drive netted \$138.47. Mrs. Gertrude Williams was chairman of that section of the drive.

Mrs. E. A. Lindrose, Mother's March chairman in Belle Glade, was unable to serve on the evening of the march due to mumps breaking out in her household.

Mrs. W. C. Allen, chairman of the South Bay area drive, was unavailable for a report at OBSERVER press time. Mrs. Duke Tucker was chairman in Canal Point area.

Asked about one picker using several names, Bartlett said that the Social Security office files by number, and the fact that there are several names doesn't matter.

He said "We expect to have records kept on 'expect' to as well as 'will.' By 'expect' we mean an opinion, conclusion, or desire. The Social Security office is reaching up into the air . . . You (Continued on Page 5)

Elks to Hear State President

PAHOKEE — Florida State Elks Association President J. Alex Arnette is scheduled for an official visit to the South-Central District Saturday, local Grand Exalted Ruler Perry Duke announced this week.

The Pahokee and Belle Glade Elks Lodges are jointly sponsoring the district meeting at the Pahokee Lodge which will welcome Elks from as far north as Vero, as far south as Delray and as far west as Ft. Myers, Duke said.

A barbecue is planned by the host lodges to be held between 5 and 7 p.m. Saturday to be followed with the official meeting and presentation of addresses by Arnette at 8 p.m. Lewis J. Fraser, vice president of the state association was to introduce the speaker, Duke said.

After the address of the evening a dance will be held from 9:30 p.m. to 1 a.m. Elks will be present as guests of honor and it is reported they will be invited to hear Arnette's address.

Levee Cleared At Canal Point

CANAL POINT — Work on clearing "maiden cane" and napier grass from the dike was in progress last week, it was reported at the Lions Club meeting Monday night.

U. S. Engineers have moved a dragline to the levee near the West Palm Beach canal hurricane gate. It is now removing the heavy growth of tangled cane on the land side of the dike. Lions members were told.

1954 Calf Sales Up

Statistics offered by Young show that in comparison to a similar increase of 10%, the Florida calf sales in 1954 were up 30% or more over sales in 1953, and increased 100% over sales in 1952. Young said that the 47,200 figure for 1952 was too low and indicated cattlemen were holding for a better market, and that the 1953 figure of 84,100 was about right. Young said that 1954's figure of 114,500 was "excessively high and unusual." Young said that apparently lacked confidence in their ability to judge the future market.

Young stated that the Florida market is a little off for this time of year when prices should be as good as not a little better than Kansas, Chicago or other meat centers.

Packer's Opinion

Louis Soloway of United Packers, Miami, told the OBSERVER this week that in his opinion prices in the Glades on lean meats (cutters, canners and utility) were "substantially good" by comparison to the meat centers and that he was currently buying in north Florida and Georgia where the figures were lower. He indicated in discussing the matter, that if there were "lean meat" cattle being sold short today that it held and fed more, would grade higher and bring a better price to the cattlemen, they should be held if possible for future market demands.

Winter Preparation

H. L. Speer, county agent, in discussing the problem with GLADES OBSERVER said that the present market conditions is undoubtedly due to the fact that insufficient preparation is made for winter. "Perhaps this will convince some cattlemen of the need to make such preparation," he said. Speer recommends that cattlemen either prepare pastures with grasses that like winter (possibly bermuda with clover) or have some silage, or, never still, have some sugarcane for supplemental feeding when the grasses are frosted out.

He said that the subject feels that a few acres of cane are "a good insurance policy" (Continued on Page 6)

Amateur Boat Races Sunday

FT. PIERCE — Strictly amateur boat races will be held here at 2 p.m. Sunday, sponsored by the Ft. Pierce Boating Club, Inc., according to Commodore W. L. Cousins.

Entries for the competitions will be accepted until starting time, Cousins said.

Two races will be run for 25 horsepower "F" and 11 "Runabouts." One for stock equipment boats and the other for modified power.

Fifteen horsepower family runabouts can compete in a stock engine race and 15 horsepower utilities in a modified engine competition, the commodore said.

The fifth race will be a free for all. Prizes will be awarded the winners in each race and Glades boating enthusiasts are invited to participate, it was announced.

Harper of St. Thomas, Ontario; Dr. and Mrs. Barber from Madison, Wis., Mr. and Mrs. Ralph W. Kidder, Mrs. Ruth Wedgworth and Mr. and Mrs. Ivan Horn, of Belle Glade.

U of F Glee Club In Glades Concert

The Men's Glee Club from the University of Florida, performed before a packed house at the Belle Glade Elementary School Gym Tuesday evening. The Glee Club is composed of forty young men from all over the State of Florida; with two from Belle Glade - Freddie Stevens and Jerry Brent.

A varied program was presented to suit the taste of every type of music lover.

The program started with a group of sacred songs - "Now Let Every Tongue Adore Thee" by Bach; "Holy Lord" by Borland; "Jubilate, Amen" by Kegerl; "Hallelujah Amen" by Handel.

The second part of the program was a saxophone and piano duet with Louis Stalnaker playing the sax and R. J. Fletcher at the piano. They played "Concertine Da Camera" by Liebert. On the second number, "Pick Yourself Up" by Kern, the guests of Mr. and Mrs. Jimmy Herring at Davis Ranch near Tampa, motoring on to Howey

Peel. Randall Marsh was the

Baritone soloist for the next number - "Point of View" by Milkey.

Spirituals

The next two numbers were Negro spirituals arranged for Men's Glee Clubs by Mr. W. H. Dawson, now director of the famous Tuskegee Institute. They were "Soon Ah Will Be Done" and "A Rovin'". Alan Hovey, bass soloist, sang the latter number. Charles Biggs was the tenor soloist for "Yonder! Yonder!"

The entire Glee Club presented "Tarentella" by Thompson. In creating this work, Mr. Thompson has penned one of the finest works now available in Mens Glee Club literature. He has es-

tablished himself as a leader and an outstanding composer on the American musical scene, as well as an educator and a conductor.

New Girls' Sextet

The fourth part of the program features the Girls' Sextet composed of June Foster, Ann Grossman, Barbara Ann Bobo, Esther Northrop, Bobby Sue Yates and Dorothy Beck. The Girls' Sextet joined the Men's Glee Club in this excellent arrangement by James Emerson, a student of the University of Florida's Division of Music.

After the curtain call, the Glee Club sang their Alma Mater song and asked all University of Florida Alumni to stand and join in.

The director is Norman Abelson and R. J. Fletcher is pianist.

KEYWORD—

(Continued From Page 1)

To make the decision. If you don't keep records, it doesn't absolve you of the tax liability if the individual does make the \$100. Certainly if there are substantial numbers of these cases, there'll be kickbacks.

Refunds

Warren Battle asked what employers would do with the refunds due employees who did not make the \$100, "as migrant as these people are."

Hollingsworth said the worker could be refunded direct if he were still around, but if the money was not refundable the employer should report it on his annual tax report. The employer can get his refund from his employer or from the director of Internal Revenue if the employer has reported it.

Gehrken emphasized that on the certain and the "expects" both, tax deductions and payments must start with the first dollar of the \$100.

Lloyd Hundley said "If a farmer has 500-600 acres of beans to pick, he'll have up to 300 pickers a day. You know a lot are going to make the \$100, but if a record was kept on every day's picking... I wonder if the folks who set up the law realize the length of that record would be in the thousands, with perhaps a 100 making it."

Bartlett answered that he had heard of the idea of putting record cards into the hands of workers and keeping an accounting of those cards. "Would that be an intolerable job?" he asked. Hundley said he doubted if more than 10 percent would be over the \$100 mark.

The answer to one question as to "Whether Congress has set any price to pay the farmer when he collects this money," Bartlett said, chucking, that he thought that Congress thought "You'd put it on the bean prices and we'd pay for it in Baltimore."

Hollingsworth said "Most employers have been collecting on the withholding tax for many years and haven't been paid for doing it. I don't think we'll start... that's part of the cost of doing business."

Referring back to Hundley's question on how to check up on the hundreds of pickers' earnings, Bartlett said "Looking at it from your standpoint... if you haven't taken any steps... it is largely up to you — take a poll every few days, or maybe you can check by whether they

have worked for you before."

Hundley said he knew the pickers who lived in his quarters would pass the \$100 mark, "but if I start taking out Social Security for them... then they don't live in those quarters any more."

Gehrken said that the question had come up constantly, of what to do about those who aren't having money taken out of their pay for Social Security. Said Gehrken, "The answer is it's up to you — start taking from all. That is being done up and down the coast and by some of you in the Glades."

He said one solution to the question of tickets turned in to the lunch wagon had been that the lunch wagon operator stopped giving change, and instead gave a cash ticket to the customer, who in turn had to go through the line with the ticket in order to get a refund.

All Counted

Albert Fremd said "If one worker comes up with about 15 tickets and you know for sure he didn't pick that much and is holding somebody else's tickets, too, should you take out Social Security on all of them?"

Bartlett replied in the affirmative. He said there would be "no kickback when you report that number."

Answering the question "If the farmer decides to report all workers and pays even on those who don't make \$100 from him, how does he get the money refunded?" Hollingsworth said that it was up to the worker to report the money due on his income tax form.

Price asked "Do you expect these workers to make a report on money due them?"

Hollingsworth said "We find if they have money due them, they'll report."

Fremd's question on whether the farmer could get any tax consideration on such items as truck repair costs and similar charges within the straight fee paid contractors brought the suggestion from the panel that application for a formula from the Jacksonville Internal Revenue office might bring a beneficial result.

Answering Battle's question as to the penalty for violation of the new requirements, Hollingsworth said "If the violation is willful, the penalty is rather severe, and I don't think you want to be involved in that. There is no penalty if the violation is not willful, except for failure to file and failure to deposit."

Weekly Cards

Earl Cosman asked if it was permissible for workers to keep their cards for a week or so and then turn them in. He was told that in Broward County, a committee of farmers worked out a joint plan for getting weekly cards which are given out by the contractors who turn them in to the workers that they won't be paid unless they fill out the cards. The cards are turned in weekly except in the case of a worker leaving before the end of the week, who turns his card in when he leaves.

Broward county farmers are keeping records on as high as

a thousand workers in the field each day, and "have found it nearly as difficult a job as they thought it would be to start with," the Glades growers were told.

Crossman noted that on the coast, workers very often stay with one employer longer due to the longer growing season there.

McKinstry Answers

S. A. McKinstry said he would not ask a question, but he would answer one. "Just a couple of you gentlemen and one Congressman come help make up my payroll the first week in April."

Both Appelgren and McKinstry cited the pileup of workers late in the day when payoff time came, when many pickers had to travel to get their money, or in the late afternoon when sudden showers terminate the field work. They emphasized that the time involved making decisions would make many of the workers not to come again.

Hundley said "Seriously, I think the thing we should be working on is getting this whole thing thrown out."

Bartlett replied, "That is, of course, a legislative problem. We have worked hard on this, and have gone about as far as we can go administratively."

Ed Hamilton, lawyer and farmer from West Palm Beach, said if he had gone to Washington to meet with Social Security and Internal Revenue. Representatives in behalf of a group of Pompano area farmers.

He took with him a colored movie and showed the government people the entire bean-harvesting operation, from planting to payoff, he said.

He said he came away with five unofficial but firm conclusions about the situation, which he passed on to the Pompano group:

1—If the employer can show he made his best efforts to determine who were and who were not in the \$100 group, "he won't be criminally prosecuted."

2—Use the card system as the best record, and try to spot the "probables."

3—Make the best possible effort to spot the \$100 workers.

4—Keep records on the people in quarters, but talk it over and explain to them why it is being done.

5—Either don't "expect" to pay the workers the \$100 minimum, or start keeping records immediately.

"Every soul out here who wants to come under Social Security should be helped to do so," added Hamilton. He said that if anybody had any ideas on how the law could be changed or modified, he would appreciate hearing about it at his office in the Comau Bldg., West Palm Beach.

Mrs. Doris Sasser said "90 percent of the agricultural workers are saved if the exemption were raised or else eliminated entirely."

Answering a question from Luke Fraser as to what would happen if a worker who hadn't been expected to make \$100 did so but was not included on Social Security and reported it to

the government, Gehrken said "We would first ask you if you had recorded his earnings. If you didn't have a record, we would go back to the worker to see if he or a fellow worker had evidence that he had earned more than that \$100 from you. If he could prove he did, you would be liable."

Farmers Advised To Buy Seed Now

GAINEVILLE—Now is the time to order seed of corn and other field crops for early spring planting, the Florida Agricultural Extension Service advised farmers today.

"Shortages of some varieties may develop before the planting season, so it is well for all farmers to place their orders now and to be ready to make substitutions if necessary," Agronomist Tubrey Mixon pointed out.

Mr. Mixon expressed the belief that in most cases suitable substitutions can be made if shortages do develop, but emphasized the importance of being assured of adequate supplies of seed of first choice varieties or making plans before planting time to plant substitute varieties.

Some producers of seed of the popular Dixie 18 hybrid corn harvested short crops in the 1954 season, and this may result in short supplies this year. There are other yellow hybrids and white crops, such as Coker 811, that may be used satisfactorily. Dixie 18 supplies did run short. "In any case," Mr. Mixon said, "only adapted certified hybrid corn should be planted," it was reported by Agricultural News Service.

FLORIDA CROPS GROW

HEALTHIER WHEN PROTECTED

BY A DITHANE FUNGICIDE

DITHANE Z-78

From beans to watermelons, from azaleas to snapdragons—the profitable crops you grow deserve the best in disease control—with a DITHANE fungicide.

DITHANE Z-78 continues to be the all-around fungicide that protects many crops from many diseases. Among the Florida crops it keeps green and healthy is sweet corn. It is used to prevent infection from leaf blight and rust.

DITHANE M-22—a maneb fungicide, and newest member of the DITHANE family. DITHANE M-22 is an outstanding fungicide for the complete control of tomato diseases. When you spray tomatoes with DITHANE M-22 there is no need to switch or combine materials. It is also used on cucumbers, potatoes, celery, gladioli, carrots, eggplant, peppers and onions.

DITHANE M-22

DITHANE D-14 is used for the preparation of inexpensive tank-mix zineb or maneb. For more information on crop protection with DITHANE fungicides ask the Rohm & Haas field man nearest you.

From where I sit... by Joe Marsh

A Winner Every Time!

Last Friday at our big basketball game with Centerville I sat next to a fine-looking old man. Centerville had things their way the first half — and he cheered every score they made.

But our boys began to catch up. Then Stretch Brown put us in the lead with a long set shot, —and I noticed that the old fellow was now rooting for our side. "What team are you for, any more?" I demanded.

"Neither," he replied. "I've got my own team. I figure any kid that does a good job out there is on my team. Root for the individual like I do, and you'll always back a winner!"

From where I sit, maybe it is a good idea to keep our eye on the individual, instead of automatically grouping him on teams you're "for" or "against." We're all individuals at heart, with our likes and dislikes — our right to prefer tea to coffee or beer to buttermilk... our right to "blow the whistle" when anyone tries to regiment us.

Church Activities In The Glades

BISHOP RALPH CUSHMAN AT COMM. METH. SUNDAY

Bishop Ralph Cushman will be the guest speaker at Belle Glade Community Methodist Church Sunday morning at the 10 o'clock worship service. He is a retired bishop of the Methodist Church, having served as bishop of the St. Paul area. He was pastor of Asbury Methodist Church in Rochester, N. Y., from 1920 to 1932. He is at present at the St. Luke's Methodist Church in Columbus, Ga., filling the vacancy by death of their pastor, until June.

He is well known as a writer, particularly in the field of poetry. Hundreds of thousands have used his "Pocket Prayer Book" which he compiled as a supplement to the popular devotional quarterly "The Upper Room." Scores of people make daily use of his books on devotional meditations. Some of these are "Spiritual Hillops," "Practicing the Presence," "I have a Stewardship" and "The Message of Stewardship."

FIRST CHURCH OF CHRIST, SCIENTIST, Belle Glade CHRISTIAN SCIENCE GROUP, Canal Point

Man's universal right to spiritual growth and progress will be brought out in the Lesson-Sermon entitled "Spirit" at Christian Science services Sunday.

Spiritual selections to be read from the King James Version of the Bible will include the account of Philip's baptizing of the Ethiopian eunuch as recorded in Chapter 8 of The Acts of the Apostles.

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following selection will be among those read (241:27): "The baptism of Spirit, washing the body of all the impurities of flesh, signifies that the pure in heart see God and are approaching spiritual life and its demonstration."

The Golden Text is from 1 Corinthians (12:13): "By one Spirit are we all baptized into one body, whether we be Jews or Gentiles, whether we be bond or free."

MOST PEOPLE still don't believe it. But it is true.

And when you look into the facts, you'll find these two solid truths:

Buick is one of the "Big Three" in sales volume—and hotter this year than ever before. And Buick is one of the "Big Three" when it comes to prices which make such popularity possible. The price we show here proves it.

So why not get what a Buick has to offer, if you are in the market for a new car?

You find that the dollars you pay for Buick buy you a lot more automobile—and the sheer satisfaction that comes with bossing a brawny traveler of this caliber.

You find it in the record-high V8 power that gives life to this spirited performer. You find it in the soft and level and cruiser-steady

ride that comes of all-coil springing and torque-tube stability. You find it in the extra roominess, the extra frame strength, the extra tread width, the extra silencing—all part and parcel of every Buick.

We could tell you about the little things, too. Things usually charged for as "extras" in other cars, but yours as standard equipment at no extra cost in every Buick. Things like direction signals, oil-bath air cleaner, full-flow oil filter, automatic lighting in glove and trunk compartments—and so on.

But—you get the idea. This is a buy, this '55 Buick—a great buy—and a thriller from the instant you press its gas pedal. Come in this week and check things for yourself, won't you?

*2-door, 6-passenger Buick SPECIAL Sedan, Model 48, illustrated. Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly in adjoining communities. Even the factory-installed extras you may want are bargains, such as:
